## DO YOU GET UP

### WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It is the great medicinal triumph of the nineteenth century, discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for every body, but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a booklet telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Elmhurst, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

## JOHN MITCHELL

### WINS HIS POINT

President of United Mine Workers Carries His Cherished Design.

## THE STRIKE IS SETTLED

All But Formal Ratification of the Agreement Is Accomplished.

## Mine Operators Agree to the Naming of Representative of Labor On the Commission.

Midnight Conference at the White House Has a Happy Termination.

Washington, Oct. 16.—The strike is settled. Secretary Root announced at 1 o'clock this morning that a common ground of agreement had been reached. The president has named a commission of six persons to settle the strike.

Messrs. Bacon and Perkins, partners in J. Pierpont Morgan's banking firm, were present at the final conference as the representative of the operators.

On the commission is a very prominent representative of organized labor. The commission is finally named. It is stated, is perfectly agreeable to all parties.

After a conference with Mr. Mitchell and some further conference with representatives of coal operators, the president has appointed the members of the commission to inquire into, consider and pass upon all questions at issue between the operators and miners in the anthracite coal fields.

Brigadier General John M. Wilson, United States army, retired (late chief of engineers, U. S. A.), Washington, D. C., as an officer of the engineer corps of either the military or naval service of the United States.

E. W. Parker, Washington, D. C., as an expert mining engineer. Mr. Parker is chief statistician of the coal division of the United States geological survey and the editor of the Engineering and Mining Journal of New York.

Hon. George Gray, Wilmington, Del., as a judge of a United States court.

E. E. Clark, Cedar Rapids, Ia., grand chief of the Order of Railway Conductors, as a sociologist, the president assuming that for the purpose of such a commission the term sociologist means a man who has thought and studied deeply on social questions and has practically applied his knowledge.

Thomas H. Watkins, Scranton, Pa., as a man practically acquainted with the mining and selling of coal.

Bishop John L. Spalding of Peoria. The president has added Bishop Spalding's name to the commission.

Hon. Carroll D. Wright has been appointed recorder of the commission.

Congratulations For Mitchell.

Wilkesbarre, Pa., Oct. 16.—President Mitchell arrived here from Washington at 1:35 this morning. He was met at the railroad station by National Secretary Wilson. The press bulletins of the outcome of the Washington conference that the strike was settled were read to him while he was surrounded by a small army of newspaper men. He was immediately congratulated. The news that a common ground of agreement had been reached is received with great rejoicing throughout the entire region.

Mr. Mitchell made the positive statement that a delegate convention must first pass upon the question of calling off the strike. From the calling of the convention to its adjournment is only a matter of three or four days. There is hardly any doubt that the convention will stand by any agreement he has made with President Roosevelt.

Washington, Oct. 16.—The prolonged anthracite coal strike is not yet practically settled, but some progress has been made, and while there remain certain obstacles to be removed, in the language of Secretary Root, it is believed these can be resolved and a termination of the strike finally secured. The principal of these obstacles in the composition of the proposed commission or board to arbitrate the differences between the miners and operators, Mr. Mitchell indicated formally yesterday to President Roosevelt that the mine workers' union disents from the restrictions placed by the operators on the choice of the proposed arbitration tribunal and desires the president to have an absolutely free hand in the selection of members of the commission to be charged with an adjustment of future relations between the employers and employed.

He laid special stress in stating his objections on the proposition that one of the commission should be a judge from the eastern division of Pennsylvania. He was very insistent in some of his objections which he voiced in what might be termed a counter proposition to that of the operators. After the president and the head of the miners' union had exchanged views freely and gone over this counter proposition of Mr. Mitchell's, a call was sent out by President Mitchell for a joint meeting today of the executive boards of the mine workers' union for the three anthracite districts of Pennsylvania. At this meeting it is believed an agreement will be reached on a statement to be officially promulgated by the miners' union in response to the proposition from the operators. President Roosevelt having ascertained the views of Mr. Mitchell, at once communicated with the operators and initiated efforts to reconcile the differences developed and to have the operators make some further concessions, his aim being to reach a common accord between miners and operators whereby the labor dispute may be finally composed and mining of coal resumed.

When the last conference had been concluded Mr. Mitchell left the White House, and after a brief conference with President Samuel Gompers of the American Federation of Labor and some other local labor leaders, departed for Wilkesbarre, Pa. Mr. Mitchell's visit to Washington was by invitation of President Roosevelt, who asked the miners' president to come to Washington in order that they might discuss the terms of the proposition submitted to the president last Monday night by the anthracite coal railroad presidents in the hope that the miners and the operators as a result of the conference might be brought into agreement as to the appointment by President Roosevelt of a commission to arbitrate existing differences between them.

While all persons having knowledge of the details of the conferences are extremely reticent, enough is known to justify the statement that while they did not accomplish a settlement of the strike, they at the same time were not barren of tangible results. Some obstacles to a settlement remain. The discussion of the situation was entirely amicable. Mr. Mitchell was in a conciliatory mood, and the president was very zealous in his efforts to promote a settlement of the prolonged strike.

## MINERS WILLING

The Rank and File Ready to Accept Proposition.

Scranton, Pa., Oct. 16.—The miners who will discuss the arbitration at all are generally adverse to its acceptance but, as in all other things, satisfied to do whatever President Mitchell thinks best. There was a strong hope prevalent among the people at large that President Roosevelt would show Mr. Mitchell that despite the limitations regarding the selection of the arbitration commission, a fair, just and impartial tribunal could be selected and that Mitchell would be induced to favor the acceptance of the proposition by an assurance from President Roosevelt that he would see to it that the miners' interests would be cared for in the selecting of the commission. When the word came last evening that Mitchell had called a meeting of the district board for today this hope grew into a firm belief that President Roosevelt had succeeded and that today would see something from the strikers' side that would indicate a close approach of the end of the conflict.

There is no denying that a quiet feeling exists among a good proportion of the strikers favorable to acceptance of the proposition, even though it is not all that the United Mine Workers would have it to be. As one miner put it, "we've been asking for arbitration. Now we've got it. There may be some flaws to the proposition, but we can't expect to get everything we want."

## Fatal Tooth Pulling.

Columbus, O., Oct. 16.—Weakened by the extraction of twenty teeth in fifty seconds, Mrs. Minnie Smith, wife of Milton G. Smith, a carpenter, died yesterday afternoon a few minutes after being removed from the operating chair at the clinic of Ohio Medical university. The usual restoratives were applied, but the patient never regained consciousness. Dr. Hawley, who was in charge of the operation, says Mrs. Smith exhibited none of the symptoms of gas asphyxiation. "I am of the opinion that death occurred as a result of paralysis of the heart," he said.

## Given Safer Quarters.

Louisville, Ky., Oct. 16.—Earl Whitely and Claude O'Brien, arrested in Lexington on the charge of murdering A. B. Chinn, were landed in the county jail here at 9:30 last night.

## TERSE TELEGRAMS

The opening of the Austrian Reichsrath today was marked by stormy scenes.

In a battle near La Victoria, Venezuela, the government lost 247 men and the rebels 210.

The I. C. depot at Litchfield, Ky., was robbed of \$125. The operator was bound and confined in a nearby box car.

Onward Silver, went two miles over the Kentucky Breckers association track Wednesday at 1:29:39 breaking the American two-mile record.

The situation in Venezuela is critical. Minister Bowen has asked for American warships and it is feared there will be pillage if the rebels capture Caracas.

A workman has informed the police that a plot is on foot to blow up the president of the lower house of the Hungarian Parliament by placing a bomb beneath his chair.

Four persons already stated the audience of the Boer generals with Emperor William has been abandoned. No notice will be taken officially of the generals in Berlin.

Indications point to the German laboring class having a hard winter. The municipalities expect more calls on public charity than last winter, and the Mayor of Frankfurt on the Main has announced a city appropriation of \$100,000 for relief work to assist the laborers.

## LEGISLATIVE OUTLOOK

Republicans Expect Majority of Sixteen On Joint Ballot.

Indianapolis, Oct. 16.—The Republicans expect to have a majority of at least sixteen on joint ballot in the legislative next winter. This will be more than sufficient to re-elect Senator Fairbanks and exercise a controlling interest in all legislation. No figures are given out yet at the state committee rooms, but it is known that the officials of the organization are hopeful that at least fifty-eight members of the lower house will be Republicans. The Republicans have a majority of thirteen to go in the senate, but this may be cut down some. However, there does not seem a possibility of the Democrats getting control. If they do the chances are ten to one that their state ticket will win. But it is the understanding that the Democrats are now paying more attention to their legislative candidates, realizing that they are in a hopeless fight so far as the state ticket is concerned. They would like to elect a United States senator, but if that is impossible they would like to control the lower house so as to prevent the Republicans from redistricting the state. If the legislature should be divided it would hamper the administration of the Republicans, but the party leaders are not worried now with a fear that the Democrats will win.

There are a number of "high bred" Kentuckians here for the horse show, and some wag has started a joke regarding them that is going the rounds and is being enjoyed. The love of the average Kentuckian for his "toddy" is proverbial. An early and a late "eye-opener" are also par excellence. The story here is that Tuesday morning two Kentucky gentlemen who had arrived the night before asked the clerk of the hotel the amount of their bill. They did it with such an evident air of disdain that the clerk wanted to know what was wrong. One Kentuckian sniffed the air and proudly throwing his head to one side said: "We have not been treated with proper courtesy, sah. That nighgah of yours called us at 6:30 this morning, and we understand that the bar has been opened ever since 5 o'clock." The Kentuckians were angry because their eye-opener had been delayed an hour and a half, so they quit the hotel.

"Oom" Jack Gowdy, former chairman of the Republican state committee and one of the best known politicians in the state, is evidently growing in popularity in Paris, where he is consul general for this country. When Gowdy was appointed to this important political station many people were inclined to poke fun at the idea of plain Jack Gowdy with his Hoosierisms being transplanted to "gay Paree," but Gowdy has evidently caught on. Americans who visit Paris and meet him all say that he conducts his office with the dignity and hospitality of a true American gentleman. W. I. Reid, representative of a big packing house here, who has just returned from abroad, says that Gowdy is not only popular with Americans in Paris, but is held in high regard by the Frenchmen.

The printing of the ballots for the state election began today. The parties will be on the tickets in the following order: Democrats, Republicans, Prohibitionists, People's, Socialist and Socialist Labor. There will be 1,700,000 ballots, which is nearly three times the number of voters. The extras are for emergencies. Both Democrats and Republicans will have men watching the work, so there can be no fraud. The presses will be grinding away for fifteen hours a day for seven days.

Chairman O'Brien of the Democratic state committee and Chairman Goodrich of the Republican state committee have come to Indianapolis to remain until the close of the campaign. O'Brien arrived yesterday, having completed a tour including nearly every county. Goodrich made a short trip out of the city yesterday, but he said today that he is here now to stick till the finish. The leaders of both sides are buckling down to the final efforts.

## The Mindanao Campaign.

Manila, Oct. 16.—It will be possibly three weeks before the American expedition against the sultan of Bacolod will leave Camp Vicars. The column will not be moved until General Sumner goes to Iligan, starts the work on the north trail to Lake Lanao and returns to Camp Vicars. General Davis is anxious to avoid bloodshed in Mindanao, and has ordered General Sumner to refrain from fighting until forced into active combat. When the expedition reaches Bacolod the sultan will be given another chance to accept peace. General Sumner will not attack unless the Moros take the aggressive.

## Arbitration Wanted.

Yokohama, Oct. 1 via Victoria, B. C., Oct. 16.—The long pending dispute as to the liability of renters of treaty protected property in Japan for taxation and for such other duties as are stipulated in their leases is at last going to The Hague for arbitration.

## Farmers' Institute.

Lafayette, Ind., Oct. 16.—More than three hundred delegates are present at the annual conference of farmers' institute officers at Purdue.

## Run Over By Wagon.

Paoli, Ind., Oct. 16.—Eliza White, aged sixty-six years, is dead as the result of a heavily loaded wagon passing over his body.

## PIERCE BATTLE

Both Sides Suffer Severe Losses In Venezuela.

Willemstad, Island of Curacao, Oct. 16.—News has reached here that the battle near La Victoria, Venezuela, between the forces of President Castro and the Venezuelan revolutionists, which began Monday morning, has so far been without definite result. Only a portion of the revolutionists was engaged. The government has lost 247 men and the rebels 310. The government cannot obtain reinforcements from Caracas, as the German railroad from there to Valencia is in the hands of the enemy. The fighting was resumed yesterday.

President Castro appears to be surrounded by his enemies. The town of El Consejo, which lies back of La Victoria, is occupied by the revolutionists. Valencia is believed to be doomed. The town was attacked by General Riera on Monday and Tuesday. The government cannot receive reinforcements from Caracas, as the German railroad from there to Valencia is held by the rebels.

Those who were wounded in the fighting are still without medical assistance or care. They lie on the battlefield as they fell, and the scene there is one of great horror.

## A Strange Message.

Savannah, Ga., Oct. 16.—E. A. Schroeder of New York, a tobacco salesman and son of ex-Mayor Schroeder of Brooklyn, shot himself through the head on the train from Jacksonville. He had taken the drawing room on a sleeper, and it was in this that his dead body was discovered when the conductor went through to take up the tickets. On the body was found a letter addressed to the public in which was written: "I have committed a great crime. The law cannot punish me, hence I punish myself."

## The President's Condition.

Washington, Oct. 16.—President Roosevelt went out socially last night for the first time since the operation was performed on his leg at Indianapolis. It also was the first time he had walked in public. His leg apparently has recovered a large measure of its strength, and he no longer has to use a crutch. No limp is observable. The president walked over to Secretary Hay's, where he had accepted an invitation to dine informally with a few friends.

## Called State Guards.

Lexington, Ky., Oct. 16.—Colonel Roger Williams, upon order of Governor Beckham, ordered Company C and Company M of the state militia to report at their armories here last night to protect Earl Whitney and Claude O'Brien, who confessed to killing A. B. Chinn and wounding his son Asa. The feeling against the two men, who are in jail here, is intense and violence is feared. The sheriff has sworn in thirty deputies.

## Protecting Prisoner.

Henderson, Tex., Oct. 16.—The negro, Jim Buchanan, charged with the murder of the Hicks family in Naacodoches county, was lodged in jail here last evening. The Henderson militia company has been ordered out to protect the negro.

## STATE NEWS NOTES

Incidents and Accidents and Doings of Note Throughout Hoosierdom.

## DEACONS IN A FIGHT

Leaders in the Same Church Come Together With Knives In a Village Store.

A Daviess County Sensation That Causes Division In a Community.

Washington, Ind., Oct. 16.—At Alfordville, ten miles southeast of here, Albert Cochran was perhaps fatally stabbed by Warren Hackler, a neighbor farmer yesterday afternoon. The two men had a dispute several days ago because Cochran had made his neighbor pay for some cattle belonging to Hackler, which trespassed on his farm. Yesterday afternoon they met at the village store, both having come to town to attend a political speaking. As soon as they met they came to blows, and in the fight Hackler drew his knife and dangerously slashed his antagonist across the back, making a wound fourteen inches in length. It is feared the wounded man will die. Both men are prominent farmers, deacons in the same church and have lived as neighbors for years. The community is divided in its sympathies, and more trouble is feared.

## HELD TO ANSWER

Old Soldier Arrested On Charge of Fraud.

Marion, Ind., Oct. 16.—John H. Readman, an inmate of the Soldiers' Home, has been arrested by United States Marshal Perkins of Pittsburgh on the charge of defrauding the pension department of the government. It is alleged that Readman has been drawing a pension by signing the voucher of a soldier who is dead. He is also charged with attempting to secure a pension by swearing that he lost his leg in the army, when he lost it three years ago while not in the employ of the government.

## Had a D. N. M.

Martinsville, Ind., Oct. 16.—Virgil Matthews, bellboy at the Highland sanatorium, narrowly escaped death by the explosion of some dynamite cartridges. While picking at one of them it exploded, tearing off the thumb and first finger, lacerating the second finger, tearing off the thumb on the right hand to the first joint, a tip off the index finger and wounding the second finger. A hole was also made in his upper lip and on the right cheek near the ear. He coolly walked to the physician's office and had his wounds dressed.

## After Swindlers.

Evansville, Ind., Oct. 16.—Frank C. Lory of Petersburg, known as "the Klondike king," who says he has been fleeced out of over \$63,000 by fake foot racers at Colorado Springs, was here on his way to St. Louis. He says he has employed eight detectives who are trying to run down the swindlers. He talked with his attorney while here, and left for St. Louis with a detective. Two of the swindlers are said to live in this state.

## Franchises Arrested.

Alexandria, Ind., Oct. 16.—Solomon Hamberger, a wealthy shoe manufacturer of Cincinnati, was arrested yesterday for alleged participation in a plot to burn his hotel, the Brandon House, at Alexandria, June 24. The two boys who started the fire are now in the reform school at Plainfield, and say that they were hired by Charles Robbins, who is now in jail at Anderson.

## Another Murder.

Indianapolis, Oct. 16.—The death of Daniel Sullivan adds to the long list of murders that have occurred recently, as it resulted from injuries received in a drunken brawl which the police say took place at the home of Wm. Caldwell, Brightwood, Sunday night. Mason Hunter, who was badly beaten in the fight, was arrested on the charge of being implicated in the assault.

## Fatal Vandalia Wreck.

Greencastle, Ind., Oct. 16.—Two Vandalia passenger trains came together head-on at the curve near Reedsville yesterday afternoon, and Albert Hedding, engineer of one of the trains, and Fred Harmsen of this city, mail clerk, were killed. Two other mail clerks were badly hurt and the passengers received a severe shaking up.

## Runaway Lad Found.

Kokomo, Ind., October 16.—Alonzo O'Rear, who has been missing for three months, has been found in a New Orleans hospital, where he is convalescing from a long illness. The young man ran away from home, and the police of nearly every city in the United States have been searching for him.

## Crushed to Death.

Kokomo, Ind., Oct. 16.—Otis Cruse was crushed to death at the Kokomo steel works. His body became entangled in a wire that was being reeled on a spool. The wire tightened around his body, breaking his neck and spine. He leaves a widow.

Get Away With a \$50,000 Mail Bag In Ohio.

East Liverpool, O., Oct. 16.—A mail bag containing \$50,000 worth of checks and postal orders has been missing since Tuesday morning. The checks are mostly payable in Pittsburgh banks. The pouch is supposed to have been lost between East Liverpool and Smith's Ferry. A colored man who asked to have a check cashed in East Liverpool yesterday and who would give no identification and went away when questioned, is believed to have been implicated in the case. The mail was being sent from Pittsburgh to Cleveland.

## Excitement Subsiding.

Naacodoches, Tex., Oct. 16.—The excitement here is subsiding. The grand jury has indicted Jim Buchanan, the self-confessed murderer of Duncan Hicks, wife and daughter on three counts. Judge Davis fixed his trial for next Tuesday, when the negro will be brought back, 500 citizens of the county having guaranteed a fair trial and protection. The consensus of opinion, however, is that the military or state rangers must be sent here to prevent his execution by the mob.

GROVER CLEVELAND speaks up and repeats the substance of his old free trade speech. Now candidly, Mr. Democrat, do you want any more free trade or "tariff reform?" Did you not get enough of that sort of thing from 1893 to 1897?

A JENNINGS county democrat said to the REPUBLICAN today that he was well satisfied with the conditions of the times and did not believe there should be a change. He said he expected to go into the booth on election day and vote as he believed would be to his best interests. If he does that he will vote the republican ticket.

AS THIS is the season for burning leaves it may be well to remind the people of the city that there is an ordinance in Seymour making it a penal offense to burn leaves before eight o'clock in the morning or after four o'clock in the evening. Leaves should be burned in the middle of the day. Even then it is offensive enough to those who get the smoke.

Is it all right for the people of the state to visit Indianapolis during the fall carnival and horse show or any other time, but Indianapolis is not entitled to the trade of the people out over the state. Buy your fall and winter supplies of your home merchants. They are entitled to your trade. Always be loyal to home enterprises.

THE anthracite coal strike seems now to be at an end. The efforts of President Roosevelt to bring the operators and miners together and submit their differences to arbitration have triumphed. This announcement was made from the White House at 1:15 Thursday morning. This will be glad news to the people over the country who want to lay in their supply of coal for the winter.

SINCE the state debt has decreased under every republican administration in Indiana since 1890 and increased under every democratic administration during the same period it has been economy to the taxpayers to have the republicans in control. What is true in the state would be true in Jackson county if the republicans were put in charge of county affairs. Vote the republican ticket and you vote for lower taxes.

## Automobile Tourists.

## DIED.

ELLIOTT.—Oliver Elliott, whose serious illness has been noted in these columns, died Thursday morning at Memphis, Tennessee. Mrs. Chas. H. Hancock received this information in a telegram about noon today. Mr. Elliott went to Arkansas a few years ago and engaged in the timber and lumber business at Earl, Arkansas. He was doing a good business there. He was well known and highly esteemed in this community where he lived until he went to Arkansas. He was a son of Mrs. Elizabeth Elliott and was about thirty-five years of age. He leaves a wife, a daughter of Mr. and Mrs. C. H. Hancock, and three children.

The remains will be brought here for burial and they will probably arrive Friday. Funeral will probably be held Sunday.

## Death From Unknown Cause.

"Death from an unknown cause" is the verdict of Coroner Coots, of Jeffersonville, in the case of Frank Jacobs, of Watson, seven miles from Jeffersonville, who, on the night of October 6, was drowned off the packet Kanawha while enroute to Madison. The Coroner Wednesday questioned Second Mate Quinlan, of the Kanawha. Quinlan said that a negro and a white man had a fight on the Kanawha on October 6 about a white boy, but Jacob was not involved in the trouble, he said.

Benjamin Jacobs, father of young Jacobs, as well as other relatives, thinks a murder was committed. When the body was found floating last Sunday at Boyer's Landing there was a wound over the temple and the skull was fractured at the base of the brain. How these injuries were inflicted is speculative. The Coroner found no money in Jacobs' clothes, although he was paid two days before he lost his life. This probably closes the incident, and the Jacobs family will always cling to the belief that a murder was perpetrated.

## MARRIED.

HAMILTON-DEPUTY.

A very pretty autumn wedding took place last night at 7 o'clock on South Chestnut street at the residence of Z. H. Deputy and wife when their daughter Miss Nona was united in marriage to Benj. E. Hamilton by Rev. E. R. Vest. Only immediate relatives were present. After the ceremony an elegant supper was served. The dining room was tastefully decorated with pink and white roses. The bride wore a handsome gown of pearl colored silk trimmed in applique and carried brides roses. The groom wore black broad cloth. They were attended by Miss Lottie Deputy and Glen Wigram, sister and cousin of bride. The parlor was beautifully decorated with potted plants and cut flowers. They received many valuable presents. Mr. and Mrs. Hamilton are highly esteemed young people who have a host of friends who wish them a happy and prosperous life.

## Missionary Meeting.

The 25th annual meeting of the Woman's Foreign Missionary Society of the Seymour District, Indiana Conference, will convene at the Methodist Episcopal church in Henryville, Thursday, October 16, and continue until Friday, October 17. The first session will be held Thursday morning at 10 o'clock and at the evening session Miss Marion Newton, of Lucknow, India, and Miss Margaret Dickson, of Connersville, will be the speakers. The present officers are Mrs. Ida M. Bonnell, Brownstown, President; Mrs. Martha Coats, Columbus, Vice President; Mrs. Margaret Walters, Seymour, and Mrs. Patient Guernsey, Seymour, Secretaries, and Mrs. Minnie Swartz, Jeffersonville, Treasurer.

## Telephone Incorporated.

The Seymour Home Telephone company of Seymour filed articles of incorporation with the secretary of state Wednesday to operate lines in Seymour, Jackson county, and adjacent territory. The capital stock is \$50,000. The incorporators are: Edward L. Barber, Wauseon, O.; Claude Seymour, Chicago, Ill.; and John C. Monteith, J. H. Andrews, J. H. Peter and Seba A. Barnes, Seymour.

The Home Telephone company is the successor of Charles Leininger, who until recently was the owner of the telephone system in Seymour. It is said to be the purpose of the new owners of the system to make some extensive improvements at once.

## Fell from the Train.

A stranger giving his name as Henry Serring and his residence Youngstown, Ohio, fell from No. 12 on the B. & O. near Brownstown Thursday morning. He was picked up by No. 5 and turned over to No. 4 on which train he was taken to Cincinnati. He was quite seriously hurt. Dr. Graessle was called to see him while No. 4 was at the Seymour station. Serring is said to be a telegraph lineman in the employ of the Western Union and it is thought he was stealing a ride on No. 12 and that he was riding between the baggage car and the tender.

A. J. Frazier, formerly of Seymour, who has been superintendent of the Southern railroad with headquarters at Birmingham, Alabama, for a number of years, has resigned his position with that road and expects to take a much needed rest. Mr. Frazier left Seymour for the south in 1893. He is quite prominent in railroad circles.

To vote a straight Republican ticket make a X within the circle which surrounds the eagle, as the one above is marked. Make no other mark on your ticket. Any other mark than the X will spoil your ballot and will lose your vote. Use nothing to mark the X but the blue pencil that will be given you by the poll clerk. Should you by accident make any other mark on your ballot, return it to poll clerk and get a new one. Before leaving booth fold your ballot so that the face cannot be seen, and so that the initial of the poll clerk on the back can be seen. DON'T BE A STAY-AT-HOME. BE SURE AND GET OUT TO VOTE.

## A Typical South African Store.

O. R. Larson, of Bay Villa, Sundays River, Cape Colony, conducts a store typical of South Africa, at which can be purchased anything from the proverbial "needle to an anchor." This store is situated in a valley nine miles from the nearest railroad station and about twenty-five miles from the nearest town. Mr. Larson says: "I am favored with the custom of farmers within a radius of thirty miles, to many of whom I have supplied Chamberlain's remedies. All testify to their value in a household where a doctor's advice is almost out of the question. Within one mile of my store the population is perhaps sixty. Of these, within the past twelve months, no less than fourteen have been absolutely cured by Chamberlain's Cough Remedy. This must surely be a record." For sale by C. W. Milhous.

## Beware of Ointments for Catarrh that Contains Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine it is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials for sale. Sold by druggists, price 50 cents. Hall's family pills are the best.

# Kodol

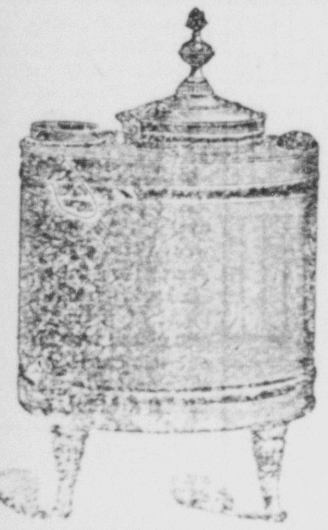

Digests  
what you  
Eat  
Dyspepsia Cure

The medical profession is one of the most conservative in the world. It is well that it should be so. We want no experimenting with our lives or health. The physician is naturally and justifiably careful to prescribe no remedy until well satisfied of its merits. So it is no small testimonial to the worth of Kodol Dyspepsia Cure that it is coming into general use among physicians of all classes. They appreciate even more readily than the layman that it gives weak stomachs just the rest they need and are prescribing it freely with wonderfully successful results. Nothing is necessary. Eat all you want. While you are strengthening the body with wholesome food Kodol Dyspepsia Cure is restoring the stomach to perfect health by relieving it of its work. Don't be satisfied with merely temporary relief when this remedy offers a complete cure. "I have used in my practice quite a lot of Kodol Dyspepsia Cure with no failures but relief in almost all cases," writes Dr. W. L. Wallace of Kingstree, S. C. "After an active practice of forty-five years this is the first time I have ever had occasion to publicly advise all dyspeptics that they have a certain remedy in Kodol Dyspepsia Cure."

### IN THE YEAR 1675

When men wore clothes like these, Charles II. of England issued a proclamation suppressing coffee houses. He considered them "hot beds of sedition" and dangerous to the public peace.

Times have changed since then. In these days benevolent persons establish coffee houses, having learned that they promote the public welfare. The reason for this is that they drink coffee at home themselves, and know its virtue.

Perhaps if it had been possible for King Charles to have known such coffee as we have to-day, the kind that is sold by Chase & Sanborn, he would have done different.

No one can fail to be benefited by this the most delicious coffee known to the American public.

Chase & Sanborn's Seal Brand Java and Mocha always gives satisfaction and leaves a feeling of contentment whenever it is used.

It does more. It insures good health because it is pure.

Insist that your grocer shall give you Chase & Sanborn's Coffee. Either the Seal Brand in one and two-pound cans or any of their high grade coffees which you get in parchment-lined colored bags; you will not be sorry.

## TO REDUCE ARMY

The War Department Issues Orders to Cut the Force to the Minimum.

### NO NEED OF ANY MORE

With the Cessation of Outbreaks in the Philippines a Great Force Is Not Needed.

The Minimum Force Authorized by Law is 50,500 and These Will Answer.

Washington, Oct. 16.—Orders were issued by the war department today ordering that the regular army be reduced to the minimum size authorized by law, 50,500 men. With the practical cessation of outbreaks in the Philippines, it is believed that this can be done safely. The present size of the army is about 67,000 men. The cavalry and artillery regiments will be reduced to the minimum basis except around Fort Leavenworth, where the commands will be kept of full size for educational reasons.

## NOTABLE MAN HUNTS

HOW CRIMINALS HAVE BEEN CHASED TO THE ENDS OF EARTH.

Benson, Who Posed as Mme. Patti's Agent, Cheated Justice by Death. Relentless Energy of the Police in Tracking Counterfeiters.

There have been many long pursuits of criminals, great in the distance traveled, the obstacles overcome and the persistence of the pursuing officers, but that of Sergeant Wood of the Natal (South Africa) police is doubtless a record breaker. The man sought by Sergeant Wood was charged with embezzling large sums of money at Pietermaritzburg. He got away from South Africa and went to New York. Although the detective had information as to where his quarry was hiding, yet he had first to visit London to obtain the necessary extradition papers. Then he hurried to America and with the assistance of the United States police ran down his man. By the time he had reached Maritzburg he had been traveling hard for nearly three months and had covered nearly 21,000 miles.

One of the sternest cases of recent years was after Loys Darrell, formerly sergeant in the Seventh United States cavalry. Darrell enlisted at the beginning of the Spanish-American war and distinguished himself at Cuba. There he fell in love with a pretty Spanish girl and beguiled himself in buying finery for his sweetheart. To obtain more money he robbed and murdered a companion in arms named Crouch. He then fled.

A detective named Dupuy was put upon the murderer's track and, finding a clew, started for New Orleans. He was right in his surmise that Darrell had gone there, but when he arrived the bird had flown. He had left on a British mule transport for South Africa. Dupuy took train for New York, fast boat for Southampton, rushed by rail across Europe, caught a boat of the German East African line and finally arrived at Beira, in Portuguese East Africa.

There he waited like a spider for a fly, and just as Darrell was fancying himself safe from pursuit he pounced upon him. Later on the detective deposited his prisoner safely in Castle William jail in New York. He had traveled in all 31,000 miles and spent \$4,250 in the chase.

One of the most astonishing criminals England ever produced was a man named Benson, who began operations in London with two confederates. He organized a series of swindling companies in the city, while he himself, pretending to be an invalid, lived in the greatest luxury in the Isle of Wight. He posed as a great philanthropist, was foremost in charitable works and went into the very best society. By dint of lying certain officers of the law he lived for some years on the proceeds of his swindles. But one day the crash came. He was arrested, sentenced and got a long term in Portsmouth jail.

No sooner was he out than he was at his old tricks again. These culminated in Switzerland, where he managed to gain the affections of the daughter of an English officer. Through her he induced her father to trust him with the investment of his entire capital, some \$50,000. He bolted with the money. Chased across Europe, a detective caught him at Bremen. To avoid scandal the victim promised not to prosecute if Benson would give up the money. The latter did so and left for America. Hardly was the vessel out of sight before it was discovered that the bundle of scrip the thief had handed over was worth at most \$100.

Followed across the Atlantic, Benson escaped to Mexico, where he made \$5,000 by passing himself off as Mme. Patti's agent and selling forged concert tickets. By this time his photograph was in almost every police bureau in the world. Yet he dodged and twisted under a dozen aliases and was heard of in almost every South American state before a clever New York detective ran him down in Rio after a two years' hunt.

Even then he cheated justice. Landed in prison in New York, he walked upstairs, chatting amiably to his jailer. Suddenly he made a spring and jumped clean over the banister. He was picked up with a broken back and died that night.

The police never exhibit more relentless energy than in hunting down a coliner. A coliner's crime is against government, and so the whole force of the state are against him. The United States suffers far more from coliners than England does and is proportionately keen to run down such offenders. Early in 1900 a man named Hastings was surprised in his workshop, from which he had issued many thousands of small silver coins, but he was too quick for his would be captors and escaped. No fewer than seven secret service men were put on his track. The remarkable fact is that Hastings never attempted to leave the states.

Elffer, one of the detectives, got a hint that a stranger was in the woods. He took a blanket and some food and hid himself in a thicket. Very early in the morning Hastings passed, carrying a bag of food. Elffer tracked him to his refuge and saw that the forger was armed. He waited some distance away in hiding. When night came, Hastings came out with a dark lantern and searched every bush near his hiding place. At last he was satisfied and went back. So soon as Elffer felt sure the man was asleep he crept up and had the handcuffs on him before he could awake. On the way to the jail Hastings told his captor that he had seen him on two different occasions and had once, in Cincinnati, been within three feet of him in a theater. Chicago Chronicle.

## GUESSWORK.

It is Responsible for the Prolonged Suffering of Many Women.

When a woman "doctors" for years for a complication of ailments, and gets no better she is generally set down by the local practitioner as incurable. He has reached the limit of his skill and knowledge, and he does not think more can be done than he has done. But when this sick woman is cured by the use of Dr. Pierce's Favorite Prescription, it proves that the doctor was certainly wrong in his statement of incurableness. It also proves that he must have been wrong in his treatment; probably treating his pa-

tient for the wrong disease. His treatment was mere guesswork. The consequences of womanly disease are far reaching. In chronic cases every organ of the body suffers. There is perhaps pain around the heart, and headache, backache, and sideache among other aches. But the real cause of all the aches and pains is disease of the delicate womanly organs. This is proved by the fact that when womanly diseases are cured by the use of Dr. Pierce's Favorite Prescription, the other aches and pains are cured also.

"At the time I began taking your medicines I was very weak," writes Mrs. Bettie Payne, of Inlet, Va. "I had a tired feeling all the time, could scarcely walk across my room, pains in heart, head and stomach and very bad taste in mouth on getting up in the morning, and also had uterine trouble. Four different physicians attended me but only gave me temporary relief. I had almost given up in despair when one of your pamphlets was handed to me. I sat down and read it carefully, and then wrote to you describing my ailments. You replied, advising a course of treatment with Dr. Pierce's medicines. I sent and got six bottles each of 'Favorite Prescription' and 'Golden Medical Discovery.' I took each alternately, as advised. Before I had taken two doses of each I commenced feeling better. My heart and stomach felt relieved of that burdensome feeling. By the time I had finished with the two bottles I felt young as

a girl of sixteen. I took five bottles of 'Prescription' and three of 'Discovery,' and nearly two vials of 'Pleasant Pellets' for constipation. In conclusion will say I had taken three or four kinds of patent medicine before trying yours, which made me feel worse instead of better. I think your 'Favorite Prescription' is the best medicine on earth for women."

NO WOMAN CAN BE WRONG

In following the example of the thousands of other women who have been cured of womanly ills by the use of Dr. Pierce's Favorite Prescription. These cures cover every form of disease peculiar to women which is curable by medicine. No matter what the condition of any sick woman may be "Favorite Prescription" claims her confidence and invites a trial of its healing powers because of its many remarkable cures of other women who had found no help in other medicines and who at the best found only temporary relief from the treatment of local physicians.

The very fact that "Favorite Prescription" cures forty-nine out of every fifty women who give it a fair and faithful trial is the best guarantee of its success. In the one rare case where a perfect cure is not possible, the use of this medicine will lessen pain and increase strength. If it does not altogether remove the burden of sickness it will so lighten it that to bear it becomes easy.

"It is with the greatest pleasure I write to tell you what your medicine did for me," says Mrs. Lizzie Greer, of Laurel, Tenn. "About eighteen months ago, first wrote to you for advice; you wrote me a kind letter and told me what to do. At that time I was very sick and had been for nine months. Had ulcers and misplacement of uterus and such stomach trouble I could not eat anything without suffering afterward. My pains around my heart and such smothering spells could hardly get my breath. I took six bottles of Dr. Pierce's Favorite Prescription, six of 'Golden Medical Discovery' and two vials of Dr. Pierce's Pellets. I began to get better the first day. My friends all say, 'How well you look.' I am well and do all my work, and it was Doctor Pierce's medicine that cured me."

### WHAT IT DOES.

Dr. Pierce's Favorite Prescription establishes regularity, dries weakens drains, heals inflammation and ulceration and cures female weakness. It is the best tonic and nerve for weak run-down women, curing nervousness, backache, sideache, headache, and other womanly ailments, encouraging the appetite and giving refreshing sleep to the sleepless.

Special attention is called to Dr. Pierce's invitation to weak and sick women to consult him by letter. All correspondence is held as strictly private and sacredly confidential. A dress Dr. R. V. Pierce, Buffalo, N. Y. Sometimes a dealer, tempted by a little more profit paid on the sale of his meritorious preparations, will offer a substitute for "Favorite Prescription." "Just as good," judged by its record cures of womanly ills, there is no other medicine just as good as "Favorite Prescription."
